Summary

I am Lalit Kumar Singh, a B.E. Computer Science (AIML) student at BMS Institute of Technology & Management, Bangalore, deeply passionate about Artificial Intelligence, Machine Learning, and Agentic AI systems. I am fascinated by how intelligent systems can think, reason, and act autonomously to solve real-world problems and I am actively exploring cutting-edge fields like Large Language Models (LLMs), Deep Learning, Natural Language Processing, and Computer Vision. Currently, I am building my skills through hands-on projects, research, and continuous learning, with a strong focus on innovative AI-driven solutions. My goal is to contribute to the future of intelligent technology, creating systems that are not just smart, but transformative. I believe the next wave of innovation will be powered by AI, and I want to be at the forefront of that change.
